

Our Guards Are Going Places... and We Know Exactly Where

Now you can **PROTECT ALL** with our **Professional Guards** & **"Security Blanket"** Tracking System

When you trust your business, commercial property or construction site to CamGuard, security is as easy as **G-P-S!** CamGuard utilizes the most current technology to maximize security officer tracking, support, and efficiency. With our "Security Blanket" Tracking System, we can even provide GPS tracking of officers and reports on key checkpoints at your site with the officer's enhanced GPS-enabled phone. We always know where our guards are and where they have been. That's CamGuard's performance assurance bringing peace of mind to our clients. Exceptional people using incredible technology is what CamGuard is all about.

CamGuard Delivers 360° of Security Innovation

As a recognized leader in security innovations, CamGuard constantly explores the latest advances in video and alarm technologies to ensure peak performance at all times for our customers. Whether your needs call for general surveillance/observation, site patrol/security, asset protection, remote video monitoring, license plate ID, crowd control, digital recording/archiving, or alarm reporting; CamGuard will deliver a customized solution for your needs.

EXCEPTIONAL PEOPLE – INCREDIBLE TECHNOLOGY
