

We Monitor the Good, the Bad & the Ugly

CamGuard Video Monitoring Lets You See All, Know All.... and Even Record All Your Properties and Security Concerns

We now feature affordable, yet flexible video monitoring options that are designed to your specific business needs. To protect your investments at all times, especially while you're away, CamGuard will assess your security requirements with care and diligence. Providing the right solution is another example of CamGuard's exclusive performance assurance, bringing peace of mind to our clients.

360° of Security Innovation. Always On. Always Focused.

CamGuard specializes in providing portable, temporary or permanent video surveillance systems with full monitoring capability. Designed for quick set-up and simple, yet reliable operation, all systems are available for rental or purchase. Whether your needs call for video watch tours, random checking, wireless options, voice down, alarm verification or escort services, CamGuard has the right package for you.

Trust the expertise of CamGuard to solve your security challenges by applying the right combination of video, alarm, access controls, video monitoring and security officers right where you need them.
